

ESTRO 37, 20-24 April 2018, Barcelona, Spain

ESTRO 37 will take place from 20-24 April 2018 in Barcelona, Spain and the event represents the premier platform for radiation oncology in Europe.

ESTRO 37 will draw attention to the multidisciplinary and interdisciplinary components of the radiation oncology practice, with emphasis on the new opportunities that they represent for all professionals of oncology, not only in research but also in the daily care of patients.

The Scientific Programme Committee and Scientific Advisory Groups of ESTRO 37 are hard at work to develop joint sessions with other European and international oncology societies.

The educational aspects of ESTRO 37 will include pre-meeting courses, teaching lectures, contouring workshops and multidisciplinary tumour board sessions.

The ESTRO annual meeting has developed into a successful scientific event due to high level contributions via abstract submissions. The Scientific Programme Committee is committed to offering large visibility to promising abstracts by including them in the scientific symposia or via dedicated poster viewing sessions.

Last but not least, all of the leading exhibitors will contribute to ESTRO 37, Europe's largest industrial exhibition in radiation oncology, offering the opportunity to view the latest products and services in cancer treatment and cancer care.

Please note that some important deadlines for the conference are coming very soon:

23 October 2017 for abstract submission

17 January 2018 for early registration

Abstract submission and registration are now open. More information on the ESTRO 37 on <http://estro.org/congresses-meetings/items/estro-37>

I look forward to seeing you next April in Barcelona for this thrilling event.

With warm regards

Yolande Lievens
ESTRO president
